A. Stevenson, Esq.,

London, Ont.

Dear Mr. Stevenson:

I am much gratified by your letter and thank you for letting me know that you approve of the action that I have taken with regard to the German Professors. My point of view is that if the country through its responsible ministers says that we are to have no German in the University or in the public service certainly we shall abide by their decision. Until the country takes that attitude we must deal fairly with these men. If the country takes this attitude they have to consider that we have to live with these men after the war and that unjust action now would make our future all the more difficult.

With kind regards, I am,

Yours sincerely,

President.
